

### Features:

- Standard E27 socket, no special socket required, you can use the grow light with any standard E27 base.
- Excellent heat dissipation with heat-conducting aluminum alloy board and passive heat sink to quickly reduce heat and keep the light cool even after 24 hours of continuous usage.
- Cost effective LED, provides high luminosity with low power consumption.
- Average lifespan of 50000 hours.
- Can be applied to all stages of growth Suitable for almost any home plants, including hydroponic and aquatic plants.

### COB 18W LED Grow Light

#### Specifications :

MX-PAR38-18WQPCOB

Power	18W
Qty	18pcs*1w
Size	Φ121x134mm
Packing Dimension	127*127*152mm
Work frequency	50/60Hz
Lighting Area	0.9m <sup>2</sup>
Lumen	660lm
N.W	265g
