

Features:

- Full spectrum from 380nm to 740nm,-
- Custom ratio for different plants and different growing stage,and will maximize chlorophyll A and B production.
- Standard E27 socket,no special socket required.
- Cost effective LED,provides high luminosity with lower power consumption.
- Average life span 50000 hours.
- Suitable for hydroponics and aquatic plants as well as soil based plants.

R90 12W LED Mushroom

Specifications :

MX-R90-12W

Power	12W
Qty	24pcs 0.5W SMD5730
Material	Aluminum Case
Voltage	AC85-265V
IP Rating	IP55
Ratio	Changeable
Size	Ø90
